No. 171.—The following Resolution of the Government of India is republished :—

DEPARTMENT OF COMMERCE.

TARIFF.

New Delhi, the 8*th April* 1932.

No 341-T (150).—By the Cotton Textile Industry (Protection) Act, 1930, protective duties were imposed on cotton piecegoods for a period of three years in order to give the cotton mill industry in India temporary shelter against foreign competition. These duties are fixed at a lower rate on piecegoods of British than on those not of British manufacture. By the same Act the operation of the duty imposed by the Indian Tariff (Cotton Yarn Amendment) Act, 1927, was extended for a further period of three years on account of the unfair competition arising from the prevalence of inferior labour conditions in China. These duties will expire on the 31st March 1933. An assurance was, however, given by Government to the Legislature, when the Cotton Textile Industry (Protection) Bill was under consideration, that before the termination of the three-year period the effect of the duties on the production of cotton piecegoods in India and on the Indian cotton textile industry would be examined by a Tariff Board enquiry.

2. Since the Cotton Textile Industry (Protection) Act was passed three noteworthy changes have occurred. In the first place, the rates of duty imposed on cotton piecegoods under the Act have been raised by two successive Finance Acts, and are now levied at a rate substantially higher than the Legislature found to be necessary to give temporary shelter to the indigenous industry. In the second place, a very large increase has occurred in the imports of piecegoods made wholly or partly of artificial silk, and the duties on such goods have been raised to the rates applicable to goods made wholly or partly of real silk. Finally, the Government of India have decided to discuss at the forthcoming Imperial Conference at Ottawa the question whether Great Britain and India should enter into a trade agreement embodying a preferential tariff regime so designed as to benefit the trade of both countries.

3. The Government of India consider that the Tariff Board enquiry should now be undertaken.

The Board is requested to examine the following questions and to make recommendations :—

(1) Whether the claim of the Indian cotton textile industry to protection has been established;

(2) If the claim is found to be established, in what form protection should be given and to what extent,

(3) If it is proposed that protection should be given by means of import duties—

(a) whether the same rate of protection is required against the competition of goods manufactured in the United Kingdom as against the competition of goods manufactured elsewhere; and

(b) what rates of duty are recommended in respect of—

(i) cotton piecegoods,

(ii) piecegoods made wholly or partly of artificial silk, and

(iii) cotton twist and yarn according as they are manufactured—

A. in the United Kingdom,

B. elsewhere.

In making its recommendations the Tariff Board will take all relevant considerations into account including that stated in part (b) of the Resolution adopted by the Legislative Assembly on the 16th February 1923. In particular, the Board is requested to consider how its recommendations will affect the handloom weaving industry.

4. Firms or persons interested who desire that their views should be considered by the Tariff Board should address their representations to the Secretary to the Board.

Rules for the award of scholarships from the Silver Wedding Fund for study abroad.

An occasional scholarship may be awarded from the Fund from time to time for higher training outside India. No applications are invited for such a scholarship, but Directors of Public Instruction are at liberty to submit the applications of suitable candidates before the first of January of the year in which they desire to pursue their studies in Europe. The scholarship may be of the value of £ 300 a year, tenable for a period of three or four years, according to the course of study to be pursued, free second-class passages from Bombay to London and back will be provided. Such scholarships were originally confined to graduates of Indian Universities under the age of 22 years, but it has been subsequently decided to consider also applications from non graduates who are successful in examinations not conducted by a University, and to refrain from laying down any hard-and-fast rules specifying an age-limit. A scholarship will not ordinarily be awarded for the study of subjects in which suitable provision for training is available in India. Furthermore, only those students will be considered for scholarships who are brilliant and whose fathers have rendered exceptional services and have very limited means.
